Niguse Kelile Lema

Bioinformatics & Data Analyst

2025
Addis Ababa, Ethiopia

Dear/Sir

I am writing to express my strong interest in joining your project. I am Niguse Kelile Lema from Addis Ababa, Ethiopia. I have strong experience in Bioinformatics and Data Analysis, skilled, Python and R programming, Statistical analysis, and interpretation of biological insights. I am also proficient in the Linux command line operating system, in managing a bioinformatics server installed in the Ubuntu distribution. Currently, I am actively managing our bioinformatics server, providing support and delivering training on Next Generation sequencing (NGS) data analysis and visualization, and running my project on microbial identification using whole genome sequencing and biological data analysis.

Beyond my technical expertise, I have well well-grounded passion for teaching, research, collaboration, and problem solving. I am a very proactive individual, believe in self learning, and am ready to deliver tasks under a tight schedule.

I am happy and excited to join your project. I am looking forward to the opportunity to discuss your project, and I can provide any required documents for my application upon request.

Best Regards.
